

CENTRAL SERVICES COST ALLOCATION PLAN

Business Development

Nature and Extent of Services

Business Development (DBED) is responsible for providing direction and coordination of technical assistance to minority and small businesses and ensure compliance with race/gender/ethnicity conscious measures, Responsible Wages and Benefits Ordinance, procurement professional services and construction policies.

The functions and services performed by Business Development benefit all County departments, as well as federal, state and other grant activities. Costs incurred by Business Development have been distributed to all benefitting County departments, divisions and programs on the basis of actual dollar value of purchase orders processed (divided by 10,000).
